Providing free medical care to low-income, uninsured Rice County residents

Dear HealthFinders Supporter:

HealthFinders' seventh annual fundraiser, April 10, 2010 at The Faribault American Legion, will be a chance to bolster much needed free medical services for our fellow Rice County community members.

HealthFinders has already impacted the lives of more than 3,000 individuals seeking direct medical care for preventive, acute and chronic conditions, medication assistance, and patient advocacy with numerous organizations of distinct specialties. For the past five years of providing services, community members and organizations have worked together to serve the uninsured.

*"I always had insurance...recently I lost my job and decided to go to nursing school. Now, I do not qualify for any state healthcare programs and am a great risk for I am an insulin dependent diabetic. HealthFinders has been my saving grace and I am in debt to their services. I'm so grateful for being a part of their diabetes program, medication assistance program and the opportunity to get all of my necessary laboratory work-up. **By supporting HealthFinders you are supporting ME and all the other patients here at the clinic.** As a thankful patient, I hope to one day give back by volunteering as a nurse once I graduate with my degree."*

HealthFinders asks you to consider financially supporting the work of this community wide effort in providing FREE medical care.

Our goal of 2010 is to raise \$16,000 in sponsorships to help boost the services available to the uninsured.

Support your community

Become ambassadors of healthcare access for all

THANK YOU FOR YOUR HELP!

A reply form and envelope are enclosed. Please consider making a meaningful financial contribution to HealthFinders that will make it possible to continue to make basic healthcare available to the growing number of uninsured Rice County residents.

THANK YOU!

Lynette Dickson and
Ellen Unruh, co-chairs

Angelica E Koch, Director

All donations are tax-deductible.

HealthFinders Gala Sponsorship Opportunities

HealthFinders operates two nights a week fully staffed with volunteer medical providers, nurses, interpreters, receptionists and college students. Staffing a three-hour clinic night would not be possible without the generous in-kind donation of approximately \$600 dollars in expertise per clinic night. In addition to direct medical services, HealthFinders patients also have access to laboratory, diagnostic, specialty services (i.e. optometry), medications and chronic illness education free of charge due to the community collaboration from local organizations.

Platinum Sponsor: \$1,000

Your generous sponsorship will help to keep the clinic opened for approximately one evening.

Gold Sponsor: \$500

Your generous sponsorship will provide diabetic supplies to 10 patients for approximately two months.

Silver Sponsor: \$250

Your generous sponsorship will provide a chronically ill patient with two medications over a period of one year.
